

GOODSPRAY

Efficiency in the tank and
quality for spraying.

FORQUÍMICA[®]
TOGETHER WE GROW MORE

GENERAL INFORMATION

DESADERE helps to solve the mixing problems and acts as a water conditioner making it a better solution to spray.

ALLER works as an adjuvant, spreader, sticker and provide the solution to have less drift when spraying.

DESADERE and **ALLER** together have the synergy to do a better job in the tank so that the chemicals work the way they should.

GLC CONSULTING - Researcher Gary Could Quitman - GA Disease trial on soybeans

WATER > DESADERE > CHEMICAL > ALLER BIW

DOSAGE OF GOODSPRAY TO BE USED PER TANK DEPENDING ON VOLUME PER ACRE
